WORDS

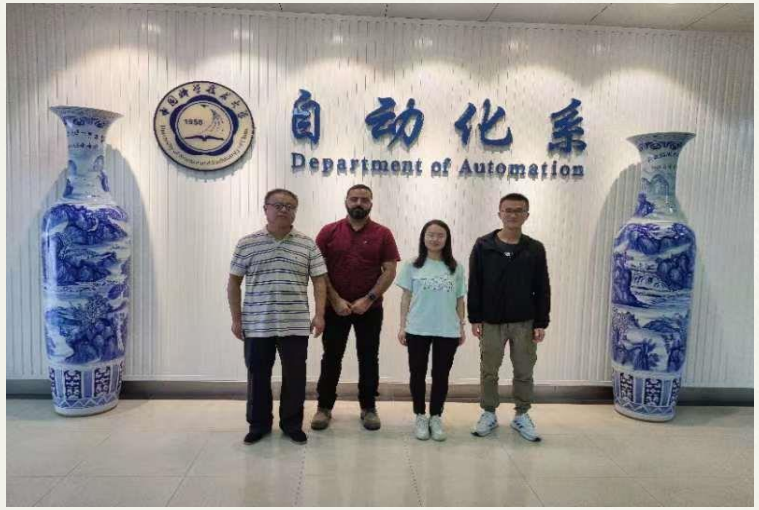

Class of 2023
USTC International Graduates

USTC International College

TAKE PRIDE IN HOW FAR YOU HAVE COME AND HAVE FAITH IN HOW FAR YOU CAN GO.

——DERRICK BOATENG

I would like to thanks the USTC institution, ISO and my professor to provide me with resources and guideline through out my study.

——Majad Mansoor

USTC International College

I am happy to be the first Mongolian Doctor to graduate from USTC, one of the best university in China. Congratulations to all international students celebrating their graduation. I love USTC❤

I would like thank my advisor Sc.D. Ariunchimeg Yarinphil (Mongolian supervisor) whose vast knowledge and plentiful experience have inspired me and for her patient guidance and support for the successful completion of the dissertation and the graduate school. I would like to thank my supervisor, Professor Qi Yuping for providing me the opportunity to undertake this study.

I would like to great thanks to my beloved husband Munkhdelger Ulziiorshikh, and my lovely father N. Byambajav, mother D. Dondogdulam, mother-in-law Sh. Tsegmid, my sister B. Nomintsetseg and brother B. Azjargal to take care of our lovely children's so that I possible to study in abroad. They gave me encouragement and motivation to persevere and accomplish my goals. I wish to express my gratitude for all the support and advice I have received during the period of my study from many colleagues, friends and all relatives. There are too many to name everyone, but I am deeply grateful to all of them. I will never forget my roommate Marina Hakim, who gave me wise advice and listened to me in all difficult times.

Finally, I give my thanks the Chinese Academy of Sciences Third World Academy of Sciences (CAS-TWAS) President's PhD. Fellowship Program for financing my PhD study and granting me the opportunity the complete my higher education.

——Uugantsetseg Byambajav

USTC International College

USTC is a kindle of light that commenced my academic ladder in step wise direction. I will like to thank the people republic of China, Anhui province, Hefei city, USTC scholarship and scholars at large. International college of USTC for the massive unflinching support from 2016-2023.
My dream has been sealed, stamped and endorsed!
Ayeekoo!

——Sayibu Muhideen

Graduation is only the beginning of a new adventure for me, and this degree is a dress rehearsal for the life I will lead. I am entering a whole new world of opportunities and challenges. I am welcoming this moment with open hearts and minds, and be proud of what I've accomplished.

——Muhammad Azhar

Reflecting on the past four years, I am grateful for the opportunity to have studied at USTC and earned my Ph.D., and I would like to express my heartfelt appreciation to my supervisor, lab mates, classmates, and friends for their unwavering support throughout my journey. I am deeply indebted to Professor Wen Liu for his exceptional guidance and dedication that allowed me to pursue my dream of earning a Ph.D. at USTC. I am also grateful to the CAS-TWAS Presidents Fellowship for their financial support and to USTC and the International College of USTC for their resources and facilities that were crucial to my success. My family's encouragement, especially my parents instilled in me a strong work ethic and sense of gratitude, and my wife and siblings' selfless dedication to our family, has been invaluable. Lastly, I am grateful to everyone who has contributed to my Ph.D. journey at USTC, and I look forward to making meaningful contributions to society in the future.

——ALTYEB ALI ABAKER OMER

USTC International College

Good morning, faculty, staff, students, and distinguished guests. I am honored to be here today to celebrate my graduation from the University of Science and Technology of China, where I studied PhD in polymer chemistry and physics.

I am from Yemen, and I came to China on a CSC scholarship. I was initially overwhelmed by the language barrier and the academic rigor, but I was determined to succeed. I was supported by a wonderful community of friends and colleagues, and I have learned so much over the past few years. I am grateful for the opportunity to have studied at USTC, and I am confident that the knowledge and skills I have gained here will help me to achieve my goals.

I would like to thank my family and friends for their support, my advisor Prof. Zhishen GE for their guidance, and the USTC faculty and staff for their dedication to teaching and research. I would also like to share a few words of advice with the graduating class: never give up on your dreams, be kind to yourself and others, and never stop learning.

Thanks again for this opportunity. I wish you all the best in your future endeavors.

——Abd Al-Wali Mohammed Mohammed Japir

USTC International College

It is now time to reminisce and reflect upon the memories we have forged, a moment to recall the path we have traversed. It is a time to express our gratitude and extend our appreciation. Moreover, it is an occasion to exult and revel in our achievements.

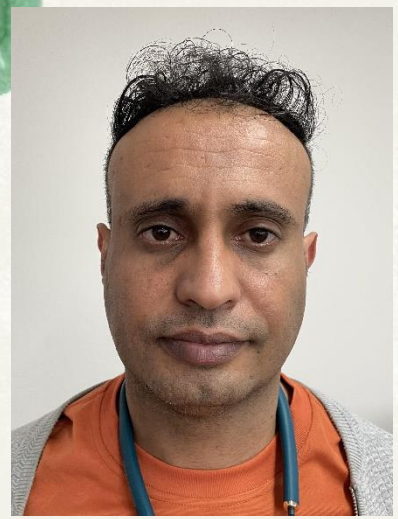

Among the countless moments etched in our minds, two hold a special place: the first, when we were bestowed with the opportunity to pursue our studies at USTC, and the second, this very moment of graduation. For each individual who had the privilege of studying at USTC, this was an awe-inspiring, "dream come true" experience. The day of our arrival remains vividly imprinted in our memories, just as these graduation moments shall endure.

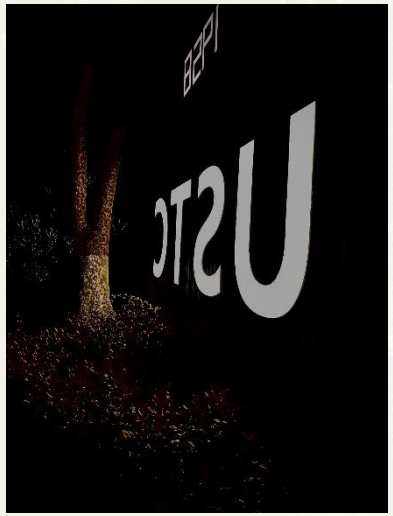

The International College of USTC has fostered an enduring sense of community, forming a unique and enriching educational experience. Through round-the-clock activities throughout the year, we have engaged in the exchange and assimilation of Chinese culture and traditions.

Allow me to share a revelation: every graduate here today has weathered the profound impact of the pandemic. The International College and esteemed professors of each department have diligently safeguarded our future, ensuring the best possible outcome. It is on behalf of my friends who have journeyed from afar, and for every individual who overcame formidable challenges to attain this lifelong triumph, that I extend my heartfelt wishes for a prosperous career ahead.

——*Vithiyapathy Purushothaman (李拯)*

USTC International College

Congratulations to all the graduates of 2023. Reaching this point required a lot of hard work and dedication, and the fact that we have accomplished it is a testament to our perseverance and commitment to our education. We have all demonstrated that we have the ability to achieve great things, and I am confident that we will have a bright future ahead.

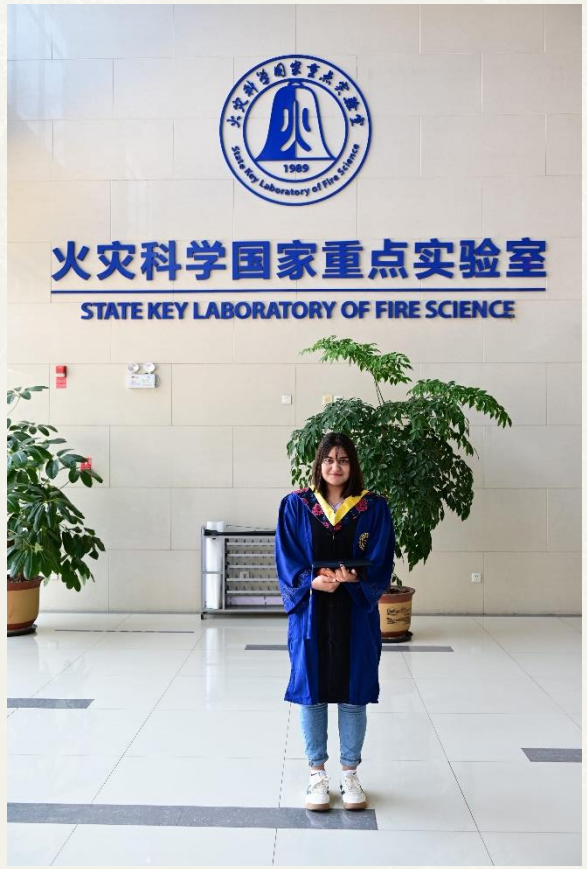

As we look back on this time in our lives, I hope we will value not only the academic skills we have acquired but also the relationships and experiences we have had during our time at USTC. The friendships we have made, the fun moments, the lectures, the talks with professors and staff, all of these have created a learning community that we will never forget.

We wish ourselves all the best as we move on to a new phase of our lives, and we hope we will continue to pursue our dreams. Never stop learning, never stop growing, and never stop seeking new opportunities.

Congratulations again to the graduates of 2023!

——Fekri Abdulwahab Abdulghani Saleh

USTC International College

Ladies and gentlemen,

It gives me great pleasure to stand before you today as a graduate of this esteemed institution. Today marks a significant milestone in our lives, and we should take a moment to celebrate our achievements.

I want to express my gratitude to our families, friends, professors, and mentors, who have supported us throughout our academic journey. Their unwavering support, guidance and encouragement have been instrumental in our success.

As we leave this institution, we should remember the lessons we have learned and continue to learn. We should remember the values that we have acquired, the skills that we have developed, and the friendships that we have made.

We are now entering into a new phase of life, where we will face new challenges, opportunities, and experiences. But as we move forward, it's important to stay true to ourselves and our values. We should remain open-minded, be willing to learn, take risks and never give up.

I encourage my fellow graduates to embrace their passions, to pursue their goals with determination, and to make a positive impact in the world. We have the power to create change, to inspire others, and to contribute to the betterment of society.

This day is not just about ourselves. It's also about those who have supported us, and those who will follow in our footsteps. As we leave this institution, let us carry the values of education, hard work, and determination with us.

——Rida Kanwal

USTC International College

I would like to express my utmost gratitude to the remarkable individuals who have been my unwavering support system throughout this challenging journey. To my beloved wife, JANNATUL FERDOUSI, my parents, and my younger brother Dr. Md Marufuzzaman Khan, as well as my friends and loved ones, I am forever indebted to your belief in me, your encouragement, and the sacrifices you have made. Your presence in my life has been a source of strength, and I am truly grateful. I would also like to extend my sincere appreciation to my esteemed advisors and mentors, Dr. Tian Xue and Dr. Jin Bao. Your invaluable guidance, wisdom, and expertise have shaped me into the researcher I am today. Without your mentorship, this achievement would not have been possible. Lastly, I want to acknowledge the collective effort and support of the academic community at Xue Lab and USTC. Today, as I stand at the threshold of new possibilities, I am filled with a profound sense of responsibility. The pursuit of my doctorate has instilled in me a deep appreciation for knowledge, a lifelong commitment to learning, and a burning passion to make a positive impact on the world.

——*MD HASANUZZAMAN KHAN*

USTC International College

Its a honor to be the part of a well reputed university of world. pay tribute to the teacher professors and the international school office for providing a nice environment of learning during the PhD life.

——Arif Hussain

In halls of knowledge, USTC we tread,
Guided by wisdom, our minds widespread.
With boundless curiosity, we explore,
For we're USTC graduates, forevermore.
Innovation's spark ignites our way,
USTC alumni, embracing the future's sway.

——Riffat Shahani

USTC, you are the BEST PART of my life!

——VIKTORIIA SAKLAKOVA

USTC International College

Together in spirit, wherever we go.
——ABDULBARY AHMED OTHMAN NAJI

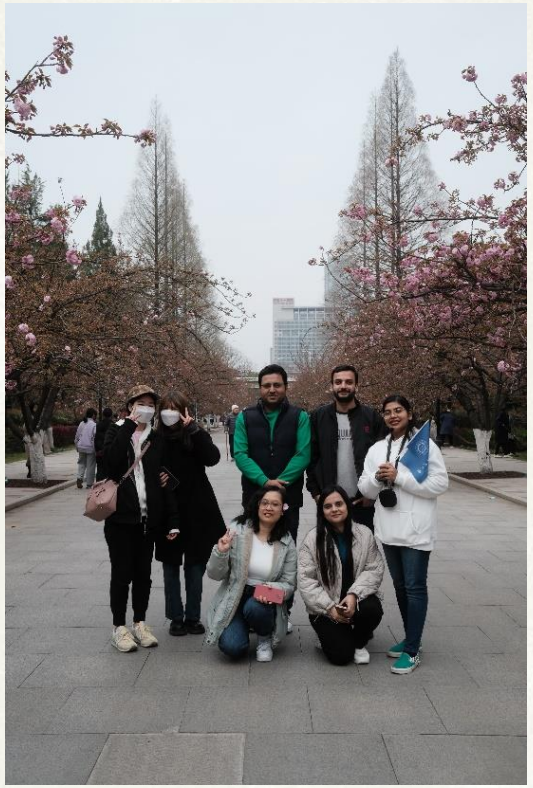

Hello everyone. Congratulations on your graduation. You've shown utmost patience, willingness and persistence to finish your degree amidst the difficulty times. I'm very proud of you all and couldn't wait to see the newest heights you'll be reaching in the future. I wish you all the best and I'm always cheering each one of you on your sincere endeavors.
——Balde Sampurna

We Made It！ ！ ！
——OUEDRAOGO EZEKIEL BOUWENDMANEGRE

USTC International College

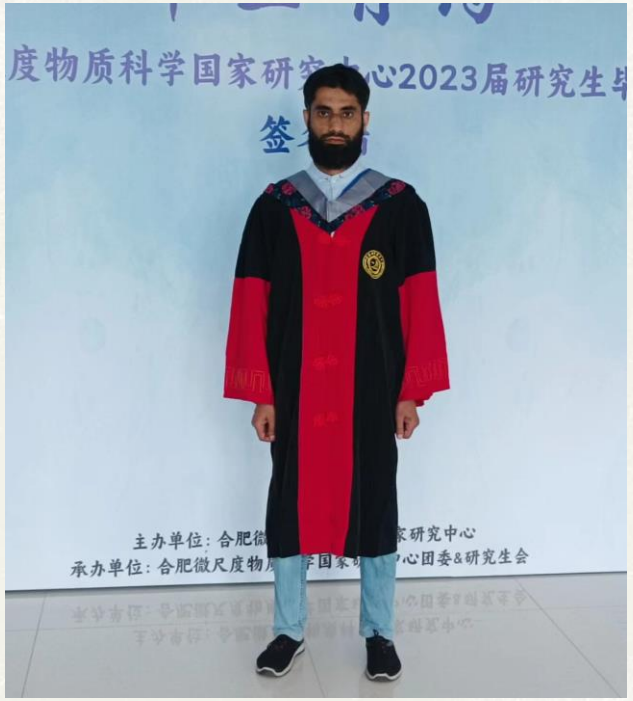

Graduating is one of my greatest accomplishments and it is an honor to be part of the University of Science and Technology of China (USTC). Graduation is a major milestone in one's life and it isn't the end of a tough journey but surely the beginning of a beautiful life ahead. Learning every day is ultimately key to success so cheers to this new adventure coming into our lives and never-ending learning experiences, dreams, and achievements in the future. Keep moving forward with a positive attitude, have faith, and believe in yourself.

——Sadikcha Tuladhar

The journey wasn't easy, but it was worth it.
Congratulations!

——TESFAYE HAILEMARIAM BARKAE

It was a joyful evening in May 2018 when I saw the list of CAS-TWAS fellowship awardees. I am overjoyed and grateful to read my name in the that I was accepted for a Ph.D. at the University of Science and Technology of China, a world-class institution. My Ph.D. journey began in September 2018, and it takes about five years to complete successfully. Although I have had many ups and downs over the last five years, I am grateful to all of my friends and teachers who have helped me tremendously.

I am immensely thankful to Prof. Barry C. Sanders for his guidance throughout the years of my Ph.D. program. It has been a great learning experience to have worked with him.

I spend the most of my Ph.D. time during the Covid-19 period. I felt it would be too tough. But I truly appreciate the efforts of the Chinese government, particularly the international college, to provide all health and food access facilities to international students. Thank you from the bottom of my heart to all of the teachers at the international college.

In last I would like to express my heartfelt gratitude to my all family members who support me mentally and spiritually.

——ABDULWAHAB KHAN

USTC International College

What I have right now is truly a blessing and a rare thing. It's not just about the personal title or academics, it's the real growth. Fears, consciousness, failures, and successes, all good and bad could often happen in life, but the graph should always creep up and up for your growth and development. It's become easier if you have the ability to extract positivity from every matter of life. So always stay positive.

——ABDUL REHMAN

I feel proud to have made history Today as I join the rest of the scholars who passed through this presitigious University. The University of Science and Technology of China (USTC) provided me with a platform to shine by turning me into a self-reliant researcher. The College of international education of USTC has been a home to me and USTC will forever be in my life. Long live USTC.

——MAREMBO MICHEAL

USTC International College

It is with immense pride and gratitude that I pen down these words, as I reflect upon my journey at USTC, which I am very proud to be a part of. As I prepare to don my doctoral cap and gown, I am overwhelmed with a sense of accomplishment, knowing that every step of this remarkable journey was worth the effort and dedication. I knew I was embarking on a transformative experience from the moment I set foot on this campus, far from my home country. The knowledge, guidance, and support I have received during my time here have shaped me into the scholar I am today. The countless hours spent in the lab have been the building blocks of my intellectual growth and have instilled within me a thirst for knowledge that will forever guide my path. As I embark on the next chapter of my life, I want to express my deepest gratitude to my supervisor, international college, and my lab fellows for their unconditional support and guidance. With profound gratitude and pride.

——*Samina Irshad*

USTC International College

Time flies, and it's hard to believe I have been here at USTC for nearly 4 years. I am excited I had this experience because it helped me grow up and discover new aspects of myself. My journey from humble beginnings in a small village in Sudan to the world-class research institution, the National Synchrotron Radiation Laboratory (NSRL) at the University of Science and Technology of China (USTC), is a testament to the power of determination and the pursuit of knowledge. My experience at USTC has allowed me to improve my skills in my field. The memories, the joy, the experiences, the people I met, and the things I learned in China, especially at USTC, will stay with me for the rest of my life. I would like to express my sincere gratitude to my advisor Prof. Liangbin Li for allowing me to join his lab and for his advice, encouragement, and support throughout my Ph.D. It's been an incredible journey filled with hard work, dedication, and perseverance. I'm grateful for all the support and help from my family, teachers, friends, and anyone who has supported me throughout my entire life. I would like to thank Allah Almighty for blessings and everything.

——Dafaalla Mahjoub Dafaalla Babiker

USTC International College

The University of Science and Technology of China (USTC) is a place where dreams flourished and the pursuit of knowledge ignited the souls of young minds. I entered this prestigious university with a thirst for knowledge and a curious mind. As the doors of opportunity opened wide, I embarked on a journey that would shape my future.

In the beginning, the campus seemed vast and unfamiliar, but I discovered the support of the International Student Office (ISO). My mentor guided me through a web of knowledge like a beacon of wisdom. In my quest for knowledge, I explored the mysterious realm of learning. Starting with understanding research papers to intricate lab experiments, I embraced the challenges with determination and resilience. Failure became a stepping stone, paving the way for growth and deeper understanding. However, university life wasn't solely about academics. Late-night study sessions turned into laughter-filled conversations, and each passing day became a cherished memory. I discovered the hospitality and enjoyed the fascinating Chinese culture.

In the final chapter of my university journey, I stood on the stage and donned the iconic graduation gown. Looking out at my fellow graduates, friends, and family, I felt a sense of accomplishment and gratitude. The years, I spent at USTC molded me into a person of intellect, resilience, and compassion.

USTC had lit a fire within me, that would continue to burn bright. As the sun set on this chapter of my life at USTC, I stepped into the world, ready to leave my footprints in the sands of time, armed with the memories, friendships, and invaluable lessons bestowed upon me during my remarkable journey at USTC.

——Muhammad Usman

USTC International College

I wish to extend my gratitude to my Ph.D. supervisor Prof. Zhongfu Ye, labmates, and research fellows. Additionally, I would like to express my appreciation to all USTC teachers, personnel, and International Student Affairs Office (ISO). I also owe my thanks to my family and my friends.

——AMR ABDUSSALAM SALLAM AL-THOBHANI

As I reflect on my graduation, I am grateful for the mentors and role models who believed in me, encouraged me, and helped me realize my potential.

——SHAHANA SHAMOON

USTC International College

The PhD milestone is a testament to perseverance, resilience, and unwavering pursuit of academic excellence. It is a moment to overcome challenges, pushed boundaries, and made significant contributions to genetics field. Enjoy the well-deserved celebration of on big achievements. Cherish the memories, celebrate the growth, and embrace the exciting opportunities that lie ahead. Hard work and determination have paved the way for a bright and successful future.

——MUHAMMAD ZUBAIR

I am very thankful to USTC for giving me this tremendous opportunity to be a part of their family. I am feeling proud after becoming a graduate of a world-renowned institution. Moreover, I will miss my golden days which I have spent at USTC and will work as an ambassador for this prestigious institution.

——Muhammad Asim

USTC International College

At USTC, I had the most incredible experience of my life.
I'm really delighted to have received my Ph.D. from USTC, the world's top-ranked university and a prestigious, reputable, and competitive institution.
I now know that enrolling in USTC was one of the best moves I ever made.
I have truly learned a great deal during my time at USTC, and I would want to convey my heartfelt appreciation to USTC for providing me with the best scientific atmosphere in which to strengthen my research talents.
I believe it has given me the opportunity to advance my profession as a scientist. All we need to do is:
Work hard, persevere, and never give up. Believing in yourself and your ability is a strong basis for life success.
Improve yourself"

——Shereen Mohamed Elsherbiny Mohamed

USTC International College

Being a student at USTC makes me feel privileged and honored all the time. Today, USTC is well known throughout the world for its reliability in research, education, collaboration, and appropriate policies. I want to express my gratitude to the Chinese government and the China Scholarship Council (CSC) for allowing me to complete my doctoral studies at USTC. Additionally, I would like to express my deep gratitude and admiration for my Ph.D. advisor, Professor Ji Jie, who helped me not only with my studies but also in other ways that were necessary to make my life in China easier. I also want to express my sincere gratitude to all the staff of the International College of USTC for their continued care and assistance throughout my studies in China.

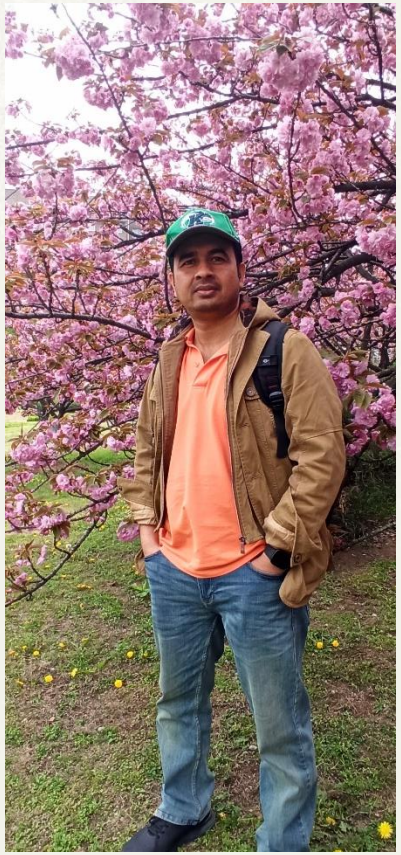

——MD. MUIN UDDIN

"It always seems impossible until it's done."
Nelson Mandela

——Tesfaye Tebeka Simur

USTC International College

Its a memorable moment for me to graduate as a doctoral student from one of the world's most renowned and top ranked university USTC. Once upon a time, it was a dream for me. Today, the dream came true. I strongly offer my gratitude to my supervisor and all the teachers and related staffs of USTC for all the support and help. It was really an amazing journey at USTC. I feel strongly motivated and happy on this day. I wish the best for USTC in the future.

——MD KHALID HOSSAIN JEWEL

Am forever grateful for the opportunity to study my master's degree at USTC and would also like to extend my gratitude to my sponsors ANSO scholarship and the International College for always standing with us in good and bad times. USTC has not only been a place of studying masters degree but also a place to grow in all spheres of my life.

——ALICE NAMBALIRWA

USTC International College

Happy Graduation I am grateful to the University of Science and Technology of China for giving me the opportunity to study at their prestigious institution and awarding me a USTC doctoral fellowship. I am also truly grateful to the teachers of International College for your exceptional efforts in creating a supportive and environmentally conscious environment for international students. Today, I am filled with a profound sense of accomplishment and gratitude. This moment marks the culmination of years of perseverance, dedication, and relentless pursuit of knowledge. Our journey through the realm of academia has been transformative. We have embraced challenges, overcome obstacles, and expanded the boundaries of human understanding. Together, we have delved into the depths of research, unravelled complex theories, and contributed to the tapestry of scientific knowledge. However, this achievement is not solely our own. It is a testament to the unwavering support and guidance we received from our families, friends, and mentors. Their unwavering belief in our abilities propelled us forward, inspiring us to reach new heights. As we embark on the next chapter of our lives, let us carry the torch of knowledge and make a lasting impact on the world. Let us harness the power of our collective intellect to address the pressing challenges that humanity faces. Let us strive to build a future where scientific advancements, innovation, and compassion converge for the betterment of all. Congratulations, my fellow graduates. May we continue to inspire, explore, and make a difference in the pursuit of truth. Farrukh Saleem School of Engineering University of Science and Technology of China

——FARRUKH SALEEM

USTC International College

As I prepare to graduate, I am filled with a mix of emotions - excitement, pride, and a tinge of melancholy. Graduating is a significant milestone in my life, and I am grateful for the opportunity to have pursued my degree and to have learned from my experiences. Throughout my degree, I have worked tirelessly, put in countless hours of effort, and pushed myself to achieve my goals. I am proud of the person I have become and the skills and knowledge I have acquired.

Looking ahead to the future, I am motivated to continue to learn, grow, and contribute to society in meaningful ways. I am confident that the skills and knowledge I have gained from my studies will serve me well in whatever endeavors I pursue. I am grateful for the support and guidance of my professors, peers, family, and friends, and finally, the USTC, who have helped me along the way. I am excited to take the next steps in my journey and to see where life takes me. Ultimately, I am grateful for the opportunity to have pursued my degree and am excited to take on the challenges and opportunities that await me in the future.

USTC International College

I want to express my sincere gratitude to my friends, colleagues, and supervisor for their endless support and incredible love. I have shared so many happy memories with them. I believe that university is not just a place for studying, but also a space for new connections, learning, and personal growth. I have learned so much here and grown in ways I couldn't have imagined before. Now, I'm reaching the end of my three-year journey. Graduation marks the end of my USTC life and the beginning of a new chapter in my life. Cheer up, Sunhyeong. Be happy! Be healthy! Be wealthy!

——Sunhyeong Park

USTC International College

我要向中国科学技术大学(USTC)表达我最真挚的感谢之情，感谢它为我提供了卓越的物理学教育。严谨的课程、敬业的教师和支持性的社区让我为在这个领域取得成功做好了准备。能够成为这样一个享有盛誉的学府的毕业生，我感到十分荣幸，会一直珍惜我在这里的时光。我所获得的开展研究、参与知识讨论、与同学合作的机会，对于我的个人和职业成长来说是非常宝贵的。我要感谢那些不辞劳苦地工作，以确保我们得到最好的教育的教师和工作人员。你们对教学的热情和对卓越的承诺，已经激励我追求自己的学术和职业目标。感谢中国科学技术大学(USTC)为我提供知识、技能和经验，这将为我的未来提供坚实的基础。

——Rashid Khan

I love USTC.

Class of 2023

USTC International Graduates

我们毕业啦

WE GRADUATED!

Global Integration, Shared Academic Institution.

USTC has welcomed students from various corners of the world, creating a vibrant and diverse community. You have weathered the storm and persevered through uncertainty caused by the global pandemic. Despite these hardships, you have demonstrated remarkable adaptability, embracing technology as a means to continue your education and forge connections across borders. In doing so, you have not only broadened your horizons but also become ambassadors of goodwill, fostering understanding and promoting harmony in an increasingly interconnected world.

USTC International College

我们毕业啦 WE GRADUATED!

Continuous Learning, Beyond Brilliance.

In your pursuit of excellence, I encourage you to remain lifelong learners. Embrace curiosity, question the status quo, and remain open to new ideas and perspectives. Cultivate a passion for knowledge that transcends disciplinary boundaries and embrace interdisciplinary collaborations that lead to groundbreaking discoveries. USTC has equipped you with knowledge and skills, armed you with a broadened mind and a diligent soul, and shaped you into a qualified USTC graduate who is ready for adventures in the future.
