"Grateful for every moment at USTC, the knowledge, friendships, and growth will guide me forward. Onward to new horizons. Forever thankful to USTC"

TANVEER ABBAS
Pakistani

" Studying at the University of Science and Technology of China has been a remarkable journey filled with academic challenges, personal growth, and unforgettable friendships. I am truly grateful for the world-class education, the dedicated mentors, and the diverse international community that enriched my experience. As we move forward into the next chapter of our lives, may we continue to uphold the values, discipline, and knowledge cultivated during our time here. I wish all my fellow graduates continued success, fulfillment, and meaningful impact in their future endeavors."

Fazal e Wahab
Pakistani

" Currently I don't have words do describe how happy I am."

Syed Muhammad Israr
Pakistani

"I am really very honored to be part of USTC"

Nisar Ahmad
Pakistani

"Today, we don't just celebrate the end of a chapter we honor the persistence, the growth, and the dreams that brought us here. To my fellow graduates: may we always be bold enough to chase new horizons, humble enough to learn, and strong enough to rise again and again. Here's to the journey ahead"

Lashkar Hussain
Pakistani

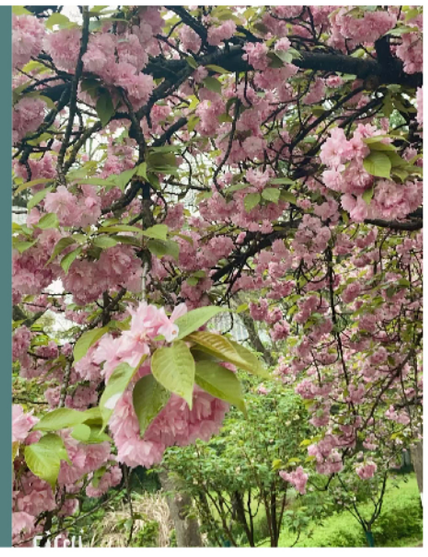

"Graduation is not the end, but a new beginning. I am deeply thankful to all my professors, classmates, and friends who made this journey unforgettable. Every challenge helped me grow, and every memory will stay in my heart. Wishing everyone success and happiness in the journey ahead！"

ADNAN IBRAHIM
Pakistani

It was a long journey with lots of ups and downs, but it's worth it .

Mona Abas Mokbial Salim

"Dear USTC, as I stand at this proud milestone, I am filled with gratitude. To my professors, thank you for your wisdom; to my friends, thank you for the laughter and support; and to my family, thank you for your unwavering belief in me. This master's journey has shaped not just my skills but also my resilience and dreams. As I step forward, I carry the lessons of perseverance and curiosity. To my fellow graduates: May we continue to learn, uplift others, and shine brightly in every endeavor. Farewell, USTC; you'll always be a part of my story."

SAMI UR RAHMAN
Pakistani

"Years of lab lights and late-night equations converge into this moment. Grateful for USTC's rigor that chiseled curiosity into courage, for advisors who turned "what if?" into breakthroughs, and peers who turned solitude into solidarity. To family, thank you for believing in my abstract dreams. As this gown settles, I carry not just a degree but a promise—to question endlessly, create boldly, and let this campus's spirit of innovation light every path ahead. Here's to beginnings wrapped in endings: onward, upward, always forward."

SHARJEEL AHMED
Pakistani

"The PhD journey is not a solitary pursuit, especially on this mysterious land of USTC. Here, you are presented with great opportunities as International postgraduate students, but the only obstacle is yourself. Beyond the lab or library, your work thrives on collaboration: mentors and colleagues provide strong shoulders to elevate your efforts. Do not just pass through USTC; allow it to pass through you. Remember, however, that all work and no play... your mental health is a priority of paramount importance. Embrace this ecosystem, and you will move mountains."

Benjamin Danso Kwakye
Ghana

"My USTC Journey (2021–2025)
My time at USTC has been transformative. Academically, I deepened my knowledge in Information Systems with a business perspective, while developing critical research skills. Professionally, I benefited from training sessions, industry visits, and a rewarding internship at BAMA Tea that honed my resilience and innovation. Walking through the East and West campuses, attending late-night study sessions, seminars, sports and cultural Sino events, and presenting my thesis with pride, all enriched my journey. Friends, classmates, and mentors shaped my experience profoundly. I am grateful to everyone, especially for the support during the pandemic. Proud to be a USTCier."

Nisar Ahmad
Pakistani

"Tiga tahun ni penuh suka dan duka. Macam orang kata, 'langit tak selalunya cerah', tapi semua ni ajar saya untuk lebih hargai apa yang ada. Terima kasih zUSTC dan cikgu ISO atas segalanya
（These three years have been full of ups and downs. Like people say, 'the sky isn't always clear,' but all of this has taught me to appreciate what I have even more. Thank you to USTC and teacher ISO for everything."

LIM WEI WANG

"No matter what's the situation and circumstances you are going through always chasing your dreams.
Make the difference you want to see around you.
Respect the other`s culture. Be opened to accept others
Your time in your school will be as worth as you cherish it;
Leave a good impression on people's hearts and never let bad situations take the good and the light from your beutiful heart"

Mostafa Essam Lotfy Hussain Orban

Pursuing a Ph.D. at the cradle of scientific elites is woven with threads of wonder and doubt. The last three months—a fear so raw it carved itself into my bones—and will forever echo in the chambers of my memory.

Nisar Muhammad
Pakistani

It was like a flash; I enjoyed the learning process and am happy to have completed the task, but I'll miss it at the same time.

To USTC—where equations met dreams and late nights in the lab turned into lifelong bonds. Every lecture hall, every starry Hefei sky, and every 'aha！' moment in research has woven itself into my story. Thank you to the mentors who challenged me, the friends who kept me sane, and this incredible institution that taught me the language of the universe. Wherever we scatter next, we'll always be

Graduating with a PhD is the end of a long journey, filled with challenges, growth, and unforgettable memories. I am deeply grateful to my professors, lab mates, friends, and especially my family for their endless support. This achievement is not mine alone; it belongs to all who believed in me. I leave with pride, gratitude, and hope for what lies ahead.

Earning my biology PhD at USTC has been an extraordinary journey of growth. I'm deeply grateful to Professor Wang Yucai for his expert guidance and steadfast support. To my friends who turned challenges into shared triumphs – your camaraderie made all the difference. This world-class institution has sharpened my critical thinking and equipped me to tackle complex scientific questions. To all who contributed to this chapter: thank you for being part of an experience that shaped both my mind and heart. Wishing everyone continued success as we carry USTC's legacy forward. Onward!

"Behind every late night, every revision, and every 'aha' moment was a dream, and today, that dream is real."
"Thank you to all who walked this path with me, your encouragement made this journey possible."

TINASHE MANGUDHLA
Zimbabwe

As I stand at this milestone, I am filled with gratitude for the incredible journey I've experienced at International College. This chapter has been more than just academics; it has been about growth, friendships, challenges, and unforgettable memories. To my fellow graduates, may we carry forward the lessons learned and the spirit of curiosity and resilience into the next exciting phase of our lives. Here's to new beginnings, endless possibilities, and the courage to chase our dreams. Congratulations to us all!

Aurang Zeb

After beginning my Ph.D. in 2017, I faced an unexpected and difficult pause during the COVID-19 pandemic, which led to a three-year suspension of my studies (2020–2022). Despite the challenges, I returned with renewed determination and have now proudly graduated. Through perseverance and dedication, I was able to publish several articles in well-renowned journals. I am deeply grateful to everyone who supported me during this journey. This achievement is a testament to resilience, and I hope it inspires others never to give up on their goals.

Md Shamim Hossain

My journey at USTC has been filled with growth, challenges, and unforgettable memories. I carry forward not just a degree, but a wealth of experience, knowledge, and inspiration. USTC has shaped my mindset, nurtured my curiosity, and prepared me for the world beyond the classroom. I'm especially grateful for the incredible professors, supportive colleagues, classmates, and the lifelong friendships I've built here. Every late night of hard work and every small victory has brought me to this moment. Thank you to everyone who walked this path with me. This ending is only the beginning of something even greater.

Morogo Freshina Mahatho

Since arriving in China in September 2018, this journey has been the most transformative chapter of my life. Completing my Master's at Soochow University and Ph.D. at USTC, I've grown both as a scientist and as a person. I had the privilege of publishing impactful research, working with brilliant minds, and exploring the frontiers of energy materials. I'm deeply grateful to my advisor, Prof. Dr. Genqiang Zhang, for his guidance and support. China became more than just a place of study; it became my second home. These years, and the memories made, will stay with me forever.

NAZIR AHMAD
Pakistani

The USTC has not only given me knowledge but also taught me the value of research, friendship, and self-confidence. The years spent here are unforgettable memories that shaped who I am today. This institution showed me that every challenge is an opportunity for success. Today, I proudly say I am a graduate of USTC. The journey ahead is new, but my passion and determination remain strong. Thank you, USTC!

My journey at USTC was not short of knowledge or surprises; it was a full experience of what China is. Warm, peaceful, welcoming, and humble, with huge potential for itself and the world.
As this journey now comes to its end, no words feel more fitting than the simplest ones: Thank you, everyone.

MOHAMED FAYSAL ABDELMOHSEN MOHAMED ZAYED

Looking back, my time in China has been a life-changing experience, filled with unforgettable travels, cultural discovery, and academic growth. From the majestic Karakoram Highway to the vibrant cities like Shanghai and Beijing, every place taught me something valuable. I'm truly grateful to the International College and USTC for giving me this opportunity. As I graduate, I carry with me not just a degree, but a heart full of memories and lifelong friendships. Thank you, China, for being a second home.

Shabih ul Hassan

Pakistani

"Two years at USTC gave me more than an MBA, they gave me transformation. From intense research nights to sharing traditional dishes at the International Festival and learning papercutting (剪纸) with friends, every moment brought growth. I'll always remember mooncakes by Yexi Lake, springtime on Cherry Blossom Avenue, and the joy of passing HSK5. Thank you to my professors, research group, and the International College for turning yìxiāng (异乡, 'foreign land') into jiā (家, 'home'). USTC, you shaped both my mind and my heart. Forever grateful."– From Pham Ngan, Vietnam with love!

Pham Thi Thanh Ngan

All praise is due to Allah SWT, who guided me when I was lost, strengthened me when I was weak, and surrounded me with a family whose love carried me. This is His decree, and I am grateful to walk the path He has written. The final most stressful days before my dissertation, Allah SWT placed in my life a strong Palestinian "Sali Alasmar", resilient in character, rich in wisdom, who stood by me in those critical moments. I learned so much from her strength, and I now consider her my sister for life. Alhamdulillah for everything.

First, I would like to express my deepest gratitude to ANSO for awarding me this scholarship and to USTC for welcoming me into this esteemed institution.
I am also immensely thankful to my family, whose unwavering support has been my strength—from the day I embarked on this journey until the day I graduate. Lastly, I extend my appreciation to all my classmates, both Chinese and international, for being such invaluable resources and for making this experience truly memorable.

Manal Abdu Ameen Hameed Sharian

When I decided to come pursue my MBA to USTC three years ago, I could have never imagined what this path would look like! Full of unexpected possibilities, endless surprises and experiences beyond academics that only made my USTC journey so much more fulfilling, fun and enriching. I made amazing lifelong friends from so different backgrounds that opened my eyes to new perspectives. I visited places I only thought existed in movies. I took part in competitions from the arts to the sports which made me try out new things out of my comfort zone. The end of a chapter may be here, but I am taking all the memories in my heart forever!

As I stand at the threshold of a new beginning, I look back with immense gratitude. This journey has been filled with challenges and triumphs, each shaping who I am today. I am deeply thankful to my parents for their unwavering love and support; they have been my foundation and my inspiration. To my professors, thank you for your guidance, wisdom, and belief in my potential. To my friends, your companionship and encouragement have been invaluable. And to everyone who has played a part in my journey, your kindness and support have made all the difference. This is not the end, but the start of a new chapter, and I'm excited to see where it leads.

As a recent PhD graduate, I am profoundly grateful for the exceptional education and incredibly supportive environment fostered by the University of Science and Technology of China (USTC). The rigorous academic foundation and collaborative spirit, combined with the unwavering support and expert guidance from my supervisor and the dedication of all teaching staff, were instrumental in my growth and success. I also extend my sincere thanks to the International Office (ISO), whose invaluable support, from initial guidance to ongoing assistance, was crucial in navigating my doctoral journey and truly enriching my overall experience.

SYEDA AROOJ

My time at USTC and in Hefei has meant a lot to me. I will always be grateful for the memories we created – the experiences and friendships that I hope will last across time and borders.
I'm glad that despite the challenges of the pandemic, I managed to return to China and graduate.
Thank you all for making this journey unforgettable. Until we meet again!
